

Tuesday, 31.10. 2006				
		Moderator: Mike Kaiser, University of Wales; Bangor, Wales UK		
		Rapporteur: Norman Graham, Institute of Marine Research; Bergen, Norway		
Duration (min)	Schedule	Session 2. Ecosystem-Sensitive Approaches to Fishing; Reconciling Fisheries with Conservation through Improvements in Fishing Technology	Code No.	
0:05	8:30	Announcements		
0:30	8:35	Keynote Address: Simon Jennings, CEFAS, United Kingdom. "When, where, how and with whom will gear technologist most effectively support an ecosystem approach to fisheries"		
0:20	9:05	Pingguo He*, P. Winger, R. Fonteyne, M. Pol, P. MacMullen, W. Lokkeborg, B. van Marlen, T. Moth-Poulsen, K. Zachariassen, A. Sala, W. Thiele, U. Hansen, E. Grimaldo, A. Revill, H. Polet -- Reducing Seabed Impact of Trawling Through Technical Innovations	2:065V	
0:20	9:25	Congda Yu*, Z. Chen, P. He -- Raise and Fall of Electrical Shrimp Beam Trawling in China: Technology, Fishery, and Conservation Implication	2:162V	
0:20	9:45	David Sterling*, S. Eayrs -- Design and Assessment of Two Gear Modifications to Reduce the Benthic Impact and Fuel Intensity of Prawn Trawling in Australia	2:129V	
0:20	10:05	Craig Rose -- Modifying Trawl Bridles and Sweeps to Reduce their Effects on Seafloor Habitats of the Bering Sea Shelf	2:117V	
0:30	10:25	refreshments in exhibit area		
0:20	10:55	Clifford Goudey*, M. Pol, O. Free, P. Tasha, L. Williams -- Sea Scallop Harvest Using Flow Control	2:049V	
0:20	11:15	Philip Walsh*, W. Hiscock, R. Sullivan -- Feasibility of Development of Baited Pots for Harvesting Cod	2:148V	
0:20	11:35	Harald Ellingsen*, S.A. Aanonsen -- Use of LCA to Analyse Environmental Impact from Commercial Fisheries	2:035V	
0:20	11:55	P-O Larsson -- The Ghost-Net Problem in the Baltic Sea	2:088V	
1:00	12:15	Lunch		
0:20	13:15	Tatsuro Matsuoka*, T. Nakashima -- Methodological Development in Quantitative Assessment on Ghost Fishing Mortality	2:095V	
0:20	13:35	Ricardo Babaran -- Discards of Commercial Boat Seines Operating in Leyte Gulf, Philippines	2:009V	
0:20	13:55	Bolu B. Solarin*, T. Moth-Poulsen, E.E. Ambrose, F. Aniebona, S.C. Oporum -- An Overview of the Introduction of Turtle Excluder and By-catch Reduction Devices in Shrimp Trawl nets in the Gulf of Guinea	2:126V	
0:20	14:15	Ron Smolowitz*, R. Silva, H.O. Milliken, J.T. DeAlteris, W.D. DuPaul, D.B. Rudders -- Reducing the Bycatch Mortality of Sea Turtles in the USA Northwest Atlantic Ocean Fisheries	2:097V	
0:30	14:35	presentation of posters		
0:30	15:05	refreshments in exhibit area		
0:20	15:35	Michael Davis -- Fish Bycatch Discard and Escapee Mortality Rates Can Be Predicted Using Reflex Impairment	2:028V	
0:20	15:55	Scott Grant -- Mortality of Snow Crab (<i>Chionoecetes opilio</i>) Discards in Newfoundland and Labrador's Trap Fishery: At Sea Experiments on the Effect of Drop Height and Exposure Duration	2:052V	
0:20	16:15	Mike Breen*, I. Huse, O. Ingolfsson, N. Madsen and A.V. Soldal -- Project Survival - An Assessment of Mortality in Fish Escaping from Trawl Codends and Its Use in Fisheries Management	2:016V	
0:20	16:35	Henry Milliken*; M. Farrington; T. Rudolph; M. Sanderson -- Survival of Sublegal Cod (<i>Gadus morhua</i>) in the Northwest Atlantic Demersal Longline Fishery	2:037V	
0:45	16:55	summary/discussion		
ending time	17:40			
	18:00	Reception in poster room (Seaport Ballroom)
